

TECHNICAL DATA

Puncture Repair Kit

Product description

Ceys Puncture Repair Kit is specially designed to quickly, simply and safely repair punctures in bicycle, motorcycle and moped inner tubes.

Technical characteristics

- Patches:

Dimensions	
- 3 round patches	2.3 x 2.3 cm
- 1 oval patch	2.6 x 4.4 cm
Colour	black

- Adhesive:

Appearance	Opaque, yellow-hued liquid with characteristic odour
Solids	23 – 25 %
Viscosity	700 – 900

Applications

Ceys Puncture Repair Kit is particularly suitable for the repair of:

- Mountain bikes
- Road bikes
- Motorcycles
- Training shoes
- All terrain running shoes
- Running shoes
- Etc.

Instructions for use

- Surface preparation:

Surfaces to be repaired must be clean and dry and free from any dust or grease.

Abrade the surface to be repaired with the sandpaper to create surface roughness and thus improve the adhesion of the patch.

- Application:

Apply a thin layer of adhesive to the pore or hole and surrounding area. Leave for 10 minutes to allow the solvent to evaporate. Apply a second thin layer of adhesive. Wait a few minutes until the adhesive is dry to the touch.

Remove the protective metal film from the patch and apply the patch to the surface that has been treated with adhesive.

Press lightly from the centre out to the edges and then remove the transparent plastic film covering the patch.

To peel off the protective film, make a light cut with a craft knife or similar in the centre of the patch, taking care not to penetrate the patch, and then remove the film working from the centre out to the edges.

The surface is then repaired and ready for use.

Dissolving and cleaning

Fresh product can be removed using a cloth dampened with universal solvent.

Once cured, use Paso Adhesive Remover.

Check the strength of the substrate by pre-testing in an inconspicuous area.

Storage

Store the product in a cool, dry place in its original closed packaging at a temperature of between 5°C and 25°C. In its original packaging the product has a life of 36 months.

Safety precautions

Keep out of the reach of children.

Flammable. Keep away from sources of heat. Do not smoke when using this product.

Irritant. May cause an allergic skin reaction and severe eye irritation.

More detailed instructions are given in the relevant product safety data sheet.

The user shall take ultimate responsibility for determining the final suitability of the product in all types of application.

The information given in this Technical Data Sheet should never be considered as a specification of the product's properties.

We guarantee the uniformity of the properties of our products in all supplies. The recommendations and information published in this technical data sheet are based on our current knowledge and rigorous laboratory tests. Due to the many variations in each project's materials and conditions, we ask our customers to conduct their own tests of utility under the expected working conditions and following our general instructions. This will avoid any subsequent damage, for the consequences of which the company is not responsible.
